Letter of Recommendation

Mr Grigoriy Dubrovskiy, born on 31st October 1990, was employed as an intern in our company between 19th January 2015 and 17th July 2015 in the department Development Center Villach – CoC Power Management Systems (IFAT DCV) in Villach.

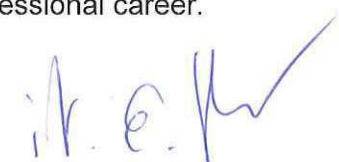

During his internship, the goal was to investigate the influence of frequency modulation of power converter on the input conducted emission. The different modulation schemes were applied to see the comparison. The methods were investigated on the different types of power converters.

Mr Dubrovskiy can immediately and securely grasp and take into consideration even issues that touch on several areas, and can quickly set correct priorities and find good solutions. He thoroughly mastered his scope of activity, often had new ideas and found ideal solutions. He always worked very reliably and accurately. Mr Dubrovskiy identified with his tasks, working with a very high degree of commitment and personal initiative. Even under great stress, he always met deadlines. Special mention should be made of his outstanding analytical abilities. He has particularly well-founded specialized knowledge.

Throughout the duration of his employment we were absolutely satisfied with his achievements. His personal conduct was exemplary at all times. In his dealings with superiors and colleagues he was always able to create an atmosphere of openness and trust.

We would like to wish Mr Dubrovskiy all the best for his professional career.

Dipl. Ing. Manfred Haas

Mag. Dr. Eva Heinetzberger
